EMPIRE GOLD

Empire Gold is a delicate collection that brings the best out of the white and gold combination. The beaming white surface lets the intricate design shine, whilst the hand-painted golden edge gives it the statement luxurious finish of Porcel pieces.

The charm of Empire Gold truly relies on the shape. The unique texture is enabled by the tri-dimensional pattern and enhanced by the glazing of the porcelain, creating a velvety effect.

This collection will be an attention grabber at any gathering, whether it sits alone or combined with other Porcel collections. We suggest the paring with Empire Silk, Lush Forest or one of our colourful collections: Matcha, Passion and Apricot.

EMPIRE SILK

Empire Silk is the result from Porcel's will to take the combination of tradition and innovation to the next level.

Each piece features a perfect balance between glazing and biscuit, a first in Porcel's collections. The all-white look highlights the beauty, as well as quality, of Porcel's porcelain, while the detailed pattern gives life and personality to the pieces.

Empire Silk is an extraordinary set that will change the way you look at white tableware.
It can be combined with its counterpart, Empire Gold, although we encourage you to create different looks with both gold and platinum Porcel collections.
